MY TODO-S

A Simplified Task Management System.

INTRODUCTION

The ToDo-s App is a simple web application built using Python and Flask framework. It allows users organize and manage their tasks efficiently. It provides features to add, delete, mark as complete, and filter tasks. Tasks are stored in a MongoDB database.

MY TODO-S

A Simplified Task Management System.

OBJECTIVE OF THE TODO-S APP

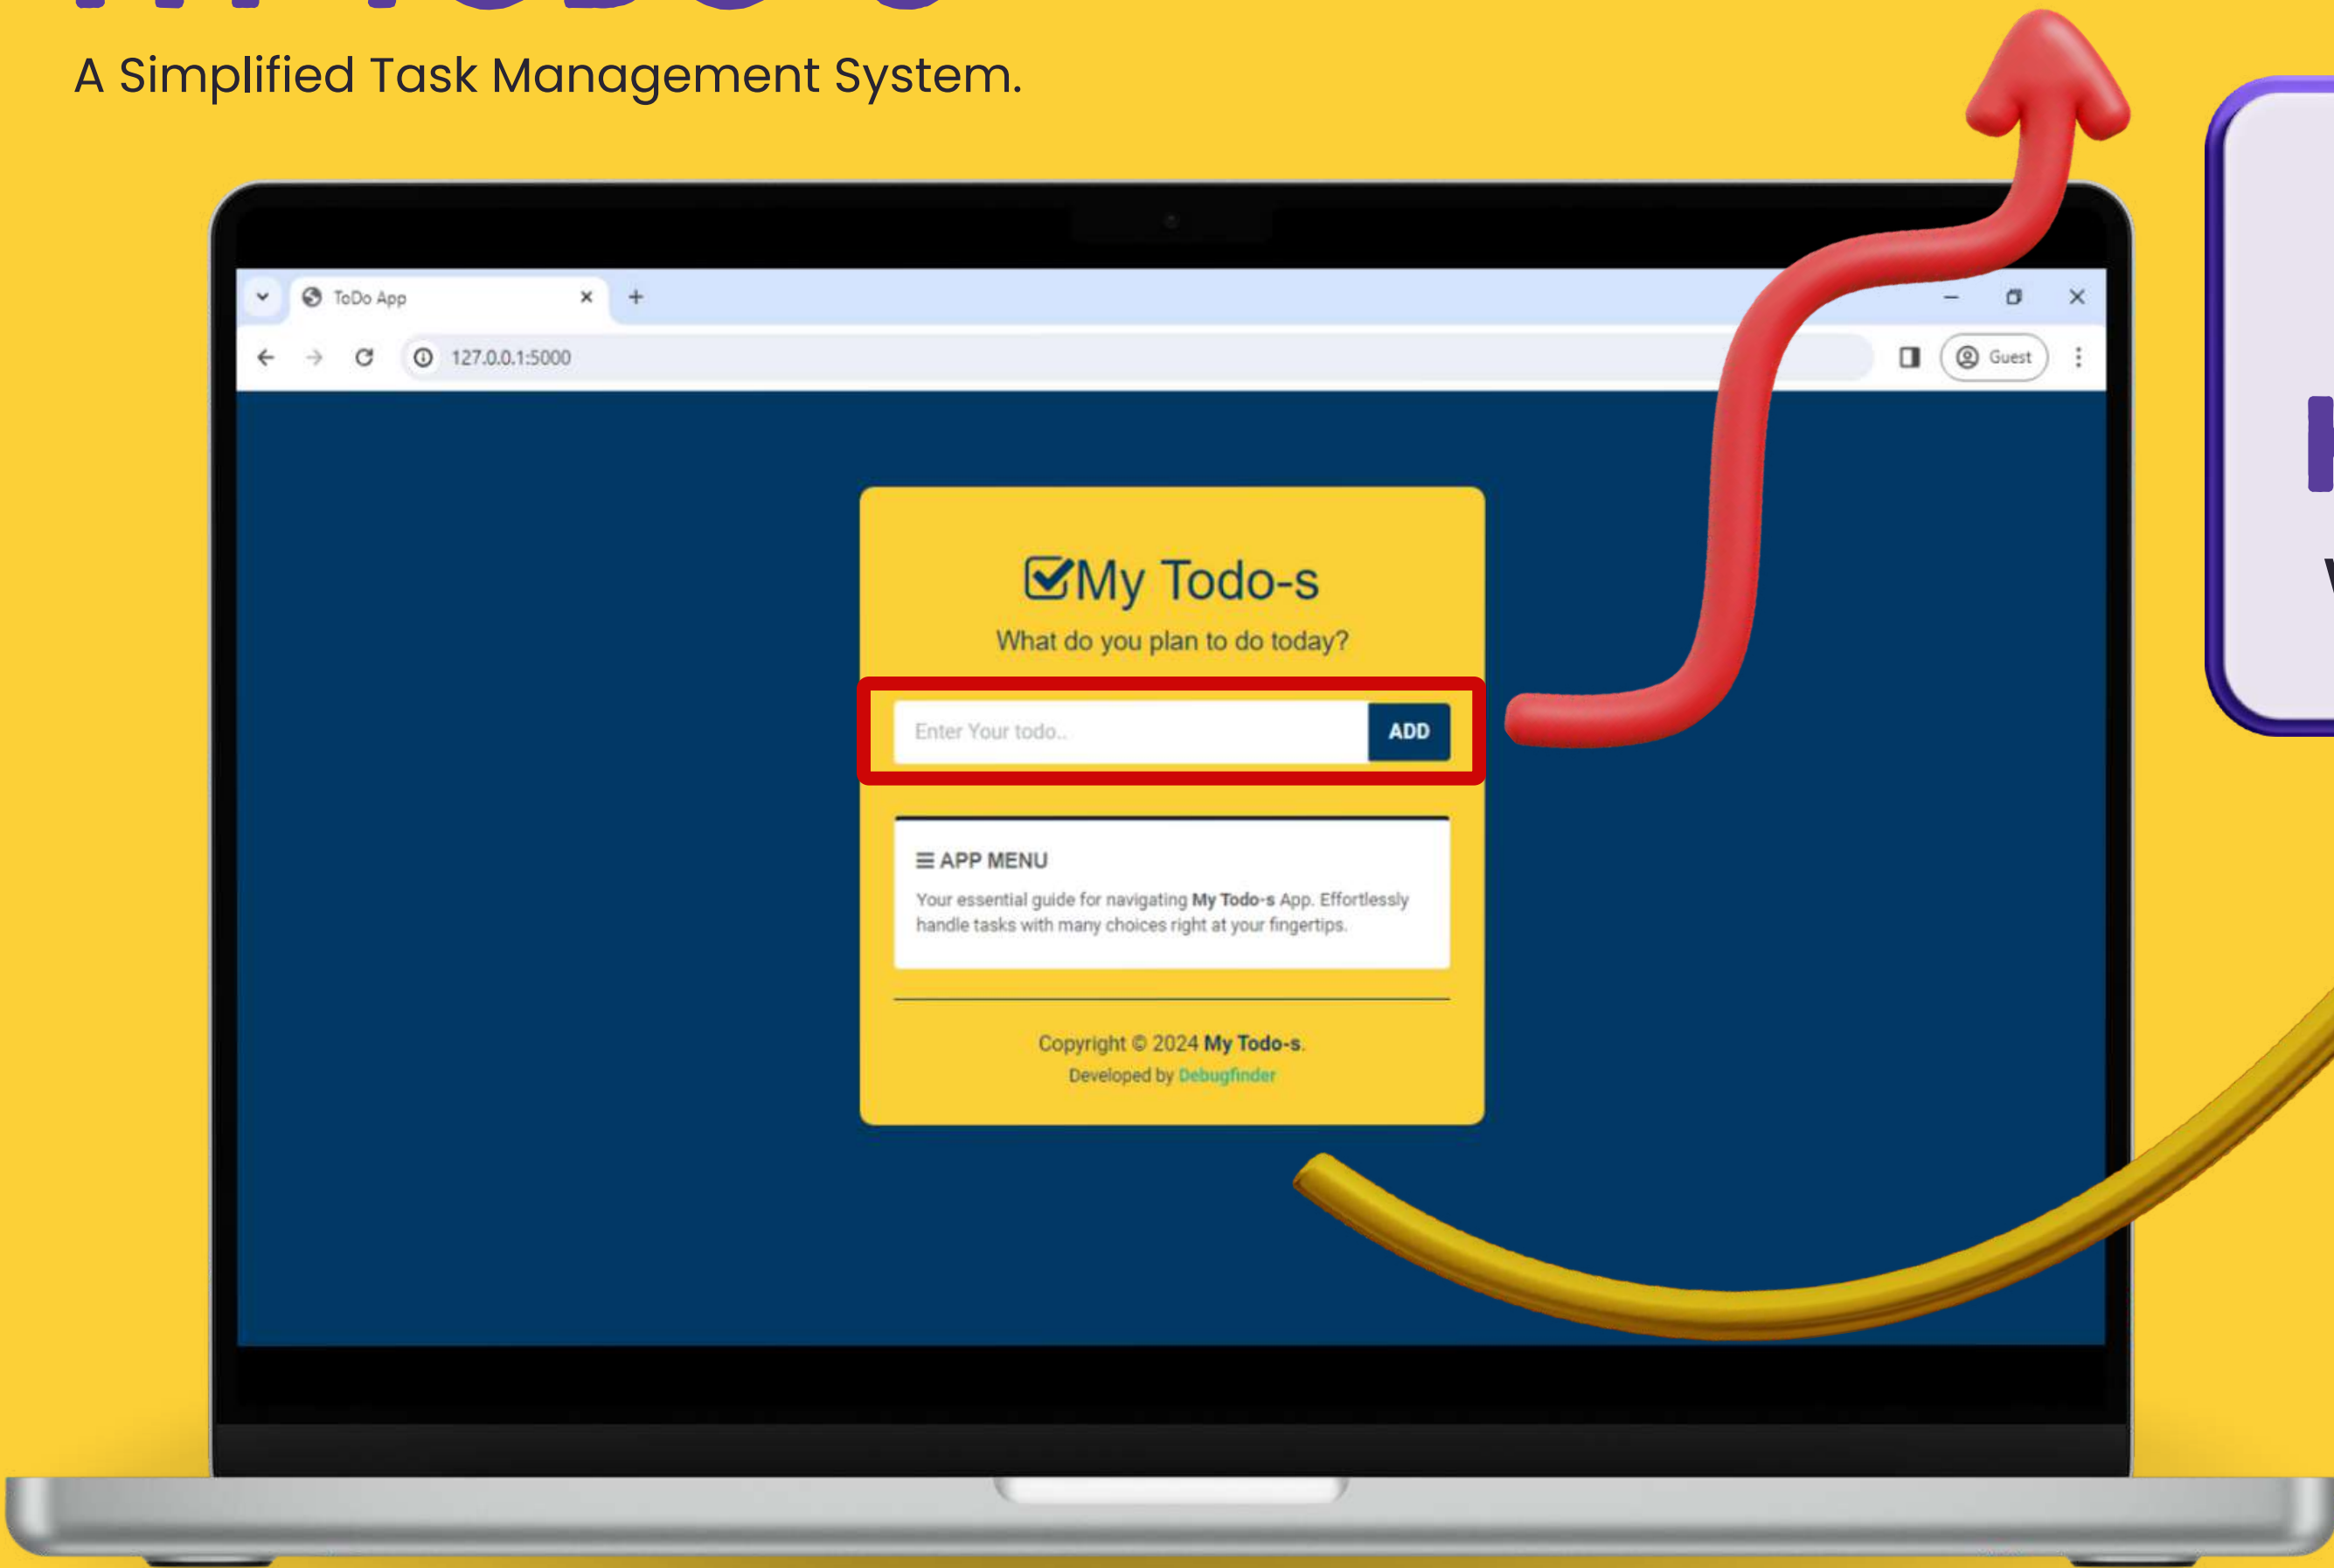

The primary objective of the ToDo-s App is to offer users a simple and intuitive platform for managing their tasks effectively, thereby enhancing productivity.
